Email:

Submission: Objection

Comments: The proposed development is too close to farm dwellings and farmland.

The proposed development will affect the surrounding wildlife through loss of natural habitat, lighting affecting animals at night time and the change of use of the land will be detrimental to the nearby farmland.

There is a fire risk associated with the proposed development but the site only has one entry/exit which would be difficult for the fire service to reach, so it is likely a fire would be left to burn causing untold damage to life in the vicinity.

The development will be unsightly and will spoil the rural nature of the surrounding area.
