Submission: Objection
Comments: I wrote a more detailed objection but the page crashed so in summary:

- my overarching concerns remain the same despite fewer planned dwellings
- Major impact on wildlife (recent trees felled by necessity on Clay Lake have led to noticeable reductions in wildlife and this develop would have an even more significant negative impact
- Rain water runoff with reduced plants and open ground there would be impact on properties below the site.
- The junction is still poorly placed on a hill and bend with limite visibly for those approaching but railing on the main road and those using the planned junction.
- No visitor parking may lead to inappropriate parking on Clay Lake which is already seeing some cars parked dangerously half on pavements
