Submission: Objection

Comments: This planning application is on "Green Belt Land" and in a conservation area, which he has already decimated and has undermined the roots of mature conifers which has caused the the trees to lean and they are now at risk of falling. He has destroyed areas of local natural wild life, which will recover if left undisturbed.

The Rudyard area does not have the infrastructure to support more housing, as there are no shops, schools, doctors or any other services.

The situation has not changed since the last time the applicant submitted a planning application, which was declined.

The proposed houses will now be even more visible from the road because of the amount of trees he has chopped down.
