Submission: Support

Comments: We have been neighbours to Gorsty Hill Farm over 60 years. This application should be supported to ensure longevity as a cattle farm, because over the years the community has lost several farms due to diversification.

Rob and Heidi have been working the farm for a considerable amount of time prior to inheriting it from their late uncle. It was their late uncle wish that the farm continue as such, and without the income from logs this could not be sustained.

We have not incurred any noise or traffic disturbances from their activities.

Allowing the storage of logs within the building, alongside their agricultural activities, will significantly enhance the visual appearance of the countryside. The buildings' modern structure is a vast improvement to the old decrepit range of buildings, and the storage of logs within, reduces the clutter on site of unsightly log cages. Allowing the change of use will contribute to a more orderly and visually pleasing environment.
