Submission: Objection

Comments: I strongly support the officers refusal of this planning application As this is not a safe site for pedestrians as there are no foot paths and it is a single track for 2 miles either way of the site. The vehicle access is on a blind corner in a 60mph zone. The site will not be big enough for play areas storage and parking when caravans start to pitch there. There is no reasonable access to schools health care community facilities by either foot cycling or public transport it is not a private site as it is open to fields from the west and north. There was a natural value to the site which has been eliminated through the hard landscaping which has been done This is a greenbelt area and should be preserved as such.
