Submission: Support

Comments: I support the BESS project on Mr land. This project will bring economic investment to our area. support local jobs and help strengthen our communitys role in the UKs green energy future. It is good to see the land being used in a way that benefits both the landowner and the wider community. The people objecting think that all of the land will be covered but actually only a small area will be. I would rather have these in our area than end up having to have a nuclear plant for our energy
