

Staffordshire County Council
Town and Country Planning Act 1990
Development Management Procedure Order 2015

To: Staffordshire Moorlands
 Staffordshire Moorlands District Council
 Moorlands House
 Stockwell Street
 Leek
 ST13 6HQ

Applicant:
 Lancaster House, Sherwood Rise, Nottingham ,
 NG7 6JE

Application Type: Listed Building

Officer:

Our Reference: SMD20250021V2

District Reference: SMD/2025/0021

Date Received: 30-Apr-2025

Date Responded: 04-Jun-2025

Particulars of Development:

Listed Building Consent for the conversion to 17 Apartments.

Location of Development:

WELL STREET MILL, Well Street Mill, Well Street, LEEK, ST13 6JU

Recommendation Summary: Additional Information

Site Visit Conducted on:

Additional Information is required:

1. Application states that existing access will be used. There are two accesses. Revised drawing has been submitted showing existing access to the east of the site and a second access to the west of the site. This western access is currently a pedestrian only access. It is not clear if this is to remain pedestrian or become vehicular.
2. Application form states that there will be 10 cycle spaces. Transport Statement states in para 6.3 that there will be cycle parking provided at a ratio of 1 space per dwelling. This equates to 17 spaces. Revised details have been submitted showing a cycle shelter but this does not show layout or number of spaces. Clarification and layout (on a drawing) is required .
3. Application form states that the application does not involve the loss of any non residential floorspace. This cannot be correct as the premise of the application is conversion of a former mill. For comparison purposes, GFA of the former industrial use should be provided.

NOTES TO PLANNING OFFICER

Application is to convert an existing former mill into apartments.

Revised details have been submitted.

West Street Mill is a large building on a constrained site. Most of the site is taken up by the building with a small courtyard area available for parking. Transport Statement (TS) states that 6 parking spaces are to be provided, but this is not reflected in the application form. A drawing has now been submitted showing the six spaces. TS states that parking spaces will be available for lease. Is there to be a mechanism to ensure that occupants must own and retain ownership of a vehicle to retain a parking space lease?

6 parking spaces for 17 apartments is low. However the site is sustainably located just outside Leek town centre with bus stops and bus interchange nearby. Public car parks are also available nearby. It

may be appropriate for parking permits for public car parks to be made available for purchase by car owners?

There is no comparison in the TS of parking demand for the existing industrial planning use and parking demand for the proposed residential use. GFA of the former use should be stated in the application. However, the mill is existing and has very limited parking for the existing use. Whatever use the building is put to, parking will be very limited. No additional parking can be provided within the curtilage. Any purchasers of the apartments will be aware that parking is limited and the apartments do not come with a guaranteed parking space.

Cycle parking is proposed. Drawing has been submitted showing a polycarbonate shelter with a gate. This is more secure than the previous proposal appeared to be.

Access is not shown on any plan. TS para 6.2 states that the existing vehicular access on the eastern boundary will be used. There are two vehicular access close to each other. What is proposed for the second access?

Revised drawing has been submitted which shows access to the site to the west of the building. this is currently a pedestrian only access. Is this to become vehicular? If so, this is not reflected in the application form. Visibility splays are unlikely to be achievable. This should remain a pedestrian only access and this should be clear in the drawing.
