Planning Application Number
SMD/2025/0243

I strongly object to the above application.

It will cause cars coming into the estate. Obviously there is no requirement for more properties in Cheddle, apparently there is an application for 200 or so in Froghall Road.

No proper infra structure, no room in schools, doctors, dentists etc

Obviously the people making this application have no concern for loss of wildlife habitat or the mature trees which would no doubt be taken down.

I hope the people responsible

for making these decisions will
not support this.

Would you please leave us
some green fields in Cheadle
and not put up more concrete
boxes no-one can afford.

Thank you

And NO to joining with Stoke
Staffordshire Councils is just fine
