

It makes me feel upset and frustrated because there are not ~~an~~ entertainment establishments to go to in Cheshire.

I Struggle to cross over the roads to get to where I need to be due to there too many cars and other vehicles about.

Nicola, Sandbach says "We need to build homes not houses. This is not about creating communities but rather about building houses through the cheapest route, by attacking green spaces and pushing the infrastructure under unprecedented pressure".

I Stand by this Statement 100%.

I have to travel 8.2 Miles from my house to Burton just so I can get specialist support from a specialist college.
