Hi,

I strongly object this planning application, as I have already outlined before in early applications for the same plot of land.

We are a small village and really don't have or need any further buildings in the area. This has already been refused several times before now, so why are they allowed to keep submitting planning applications. The person/company has several properties already throughout Staffordshire, and he is just after making more money with no consideration whatsoever about how it affects the people who live in the village and the knock on effect it will have to our area.

This will have a negative impact on our wildlife, we frequently have birds of prey, bats, owls and many many many more species of birds in the area proposed for the buildings. Not only that, this is part of the Staffordshire walkway with many people using it daily. This will ruin the countryside that so many people use on a daily basis.

We back onto the field in this planning application and our gardens already flood, so if you take away the field which helps with the rainfall, what will happen to our gardens being flooded even more.

The village is already busy with traffic and cars, we don't need to add to it.

Enough is enough, stop ruining our countryside to make rich people richer who don't consider the knock on effects/ impact this will have for years to come.

We need to keep our green space before it is lost forever.

Regards
Mr and Mrs Gadd

Kingsley

Submission: Objection

Comments: We don't need anymore properties built in the village otherwise it stops being a village.

We don't want our already busy lanes busier. We need to keep our green space, before we know it everything will be built on and then its gone forever. We have so much wildlife in that area, which will also be lost.

A village is meant to be a village NOT A TOWN.
