Subject: Re: URGENT: Re: Planning Objection - SMD/2025/0237 - Proposed Development of 4 Glamping Lodges and Associated Works at Side Farm, Cotton Bank, Cotton.

Hi Chris,

As a mechanical and fluids engineer, I have prepared five engineering reports that should be viewed in conjunction with my earlier objection letter (dated 29th July). These reports are based on conservative (risk-favouring) assumptions for permeability, porosity, and chemical decay rates, ensuring that the results are robust and not overstated.

The purpose of these reports are to provide the technical proof — using proven, peer-reviewed formulae — that supports and substantiates the factual assertions and environmental risk statements made in the earlier objections.

The findings here confirm that the pathway, impact, and long-term consequences are not speculative but are demonstrable and measurable using standard scientific methods.

Please find attached the five reports collated into one pdf document.

Please feel free to contact me either by email or mobile if there are any areas which you require further explanation or clarification.

Please could you confirm receipt and arrange for the report to be put on the application file and website?

Kind regards

Jarrod Ford
