Comments: I have lived in Werrington for most of my life and so has my family and I am utter disgusted by the sheer of volume of these battery powered solar farms, any plot of land seems to be swallowed up by investors who have no compassion for our surrounding area and the dangers in which this brings, we are going to be completely surrounded by huge batteries, destroying yet more wildlife, more greenbelt, why on earth do we need so many in such a small area?

I'm also concerned should one of these ever set fire?

Will these now devalue the house price within the area?

The sheer size of the construction that will cause years worth of mayhem, roads been blocked, affecting businesses.

I feel like Werrington has just been a complete battle for the last few years to try and save some of our Greenland, I feel extremely letdown by our counsellor that I've not shown up and supported,

And people within the area will see zero benefit from any of this
