Submission: Neither

Comments: 1/ Confusing that the address of the site is postal not actually where it is, at CELLARHEAD.

2/ I am not an expert on either planning or BESS, but 300 MW sounds like it is a lot of power, how safe is it to be situated around a Service Station selling road fuel, numerous HGV'S, and quite a number of houses, a few small businesses too. Not to mention the people living and working in what appears to be close proximity to this site.

3/ It makes me wonder if it is a good idea for a developing village. ??
