BRIDESTONE & BRYDGES
Dial Lane, Timbersbrook, Congleton CW12 3QJ. <https://bridestone.co.uk>

Bridestones quarry is situated less than 2 miles from Heaton village. Consequently, stone may well have come from this vicinity historically for the village. The colouration of this local natural sandstone is the closest we have found. Vince, the Site Manager at Bridestones provided the example above, which is a 'pitch faced' finish that shows the natural rock surface closest to the existing properties in the village. The proposals seek approval to use this stone.

Proposed Monocouche
render to dormers, off white
in colour.

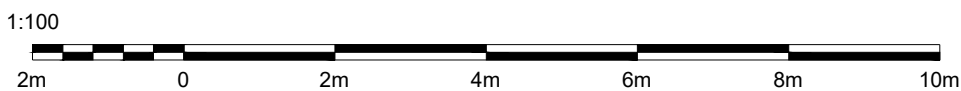

Proposed upvc double glazed
flush casement windows,
green / grey in colour.

Traditional pain roof (Staffordshire
Blue's) tiles to match the existing
dwellings in the village.

Proposed imitation cast iron
rainwater goods, black in colour.

Notes
