Drawings to be read in conjunction with 00101 PL10115E, PL10116E and AC3102.

New softwood hopper windows to receive 14mm Heritage slimline double glazed units with max. 20mm true glazing bars and 8mm sight line, utilising floor glass held in place with insised oil putty.

All other openings to receive 24mm double glazed units utilising floor glass with timber beads internally. Set back a minimum 200mm within the reveal to minimise external reflection and appearance.

Additional hidden support steel lintels/pieces may be required to strengthen & support damaged/inadequate lintels, or stone lintels to be replaced with new stone lintels to match existing only if necessary. All with Conservation Officers prior agreement.

Windows to be fitted with butt hinges complete with traditional window stay and casement fasteners. All joinery to be primed and finished in paint colour - RAL 7032 Pebble Grey

Dimensions of openings are indicative only and must be checked on site prior to ordering. Window details may require further clarification from window manufacturer, and details approved by Conservation Officer, prior to window manufacture.

Shutters to be assessed for suitability and repaired in like-for-like materials/profiles, wherever appropriate, or recycled utilising existing joinery, if required.

F.L. - Window with fixed casement.

O.C. - Window with opening casement.
