Submission: Objection

Comments: We are objecting to this proposal as we believe that if passed the battery storage will be extremely detrimental to the area for various reasons. 1-The noise from the site will be constant and affect local wildlife red kites, buzzards, foxes, etc.

as well as residents some as close as 100 yards away. 2- The flood lights used as a security measure every night will also affect wildlife whilst lighting up the area even more than the haulage yard already does.

3-The setting of the BES around both a petrol station & a haulage yard with its own fuel storage obviously brings a major fire concern for the houses and a school close by. If a fire were to occur the water used on it would soak into the fields around the BES and could make its way to a local bore hole at Sheepwash. 4- Our immediate local area seems to be swamped with sites for battery storage and we hope that SMDC will refuse this application and let our countryside be just that and not another loud buzzing floodlit local eyesore.
