Submission: Objection

Comments: I wish to oppose the retrospective planning request at Carfield regarding a lounge window which has been added to the side elevation.

The window looks directly across neighbouring Laureston and over our patio area. This constitutes an invasion of privacy to both properties and is at odds with the Delegated Report on the original application. Paragraph 127(f) of the NPPF (2019) which lists privacy as an amenity which would be protected.

The window is not necessary for light as the lounge extension is dual aspect having a full size window at the front and large bi fold patio doors to the rear. The benefit of the contested window can only be to provide a view, the trajectory of which would be directly across our two adjacent properties parallel to our patios. There is no mention of this window being fitted with obscure glass as recommended for such windows on the planning portal.

Therefore I politely request your respect for our family privacy by rejecting this retrospective application.
