

To whom it may concern

Re Fields Farm and The Cottage at ST10 2NZ

My name is Sharron Williams. I am a long term friend of family and have personally witnessed several sets of tenants living in left hand side of house which is known as the cottage.

May has owned house for maybe 40 plus years as property is quite large she has privately rented a large section as a separate house to tenants . Who have lived there on a full time basis and as a completely separate home over the last 10 years.

So fully occupied during this time.

I state that to the best of my knowledge this above is correct and a true statement
