Submission: Objection

Comments: I would like to restate my and our community objection to the proposed shed.

As well as all of the other reasons given why this application should be refused, the proposed trees that they say will screen the shed will take decades to grow.

The noise impact from them chipping all those dead trees that are less 100m from our house will be completely unacceptable. There is also a huge fire risk from the heat build up from stored wood chip right next to the Sneyd Arms Farm lambing shed.

This is not to mention that the shed will be highly visible across the wider area & it will easily be seen from Basford Bridge Lane for example. Why does the applicant think that it would be acceptable to put this tower in the middle of our community?
