Staffordshire

Submission: Objection

Comments: We are shocked and deeply saddened that they are still pursuing this application, knowing how much distress it is causing to the residents of Basford Green, as well as ourselves being the parents and grandparents of the impacted residents.

Why on earth are they putting this huge shed there in the middle of the community when they have a huge estate to put it if they needed one at all?

It is truly heartbreaking to see that huge stack of dead trees that once formed an important part of the Churnet Valley, helped clean the air and provide wildlife habitats whenever we go up to feed my son's sheep. Why were those trees cut down in the first place and why would they put those trees there if they weren't going to chip them there? It would take at least 50 truck loads to move all of them to a wood chipping plant, so it must be that they are going to chip them at / in the proposed agricultural building.

We fully object to this application, as it is so upsetting to think that the whole community will suffer as a result of this application including our son and our granddaughter, as it will ultimately impact her future inheritance.
