Submission: Objection

Comments: Peter and Dianne Ouseley Objection

We are shocked and saddened that the applicant is pursuing this application given the strength of feeling against it from our community.

If this shed was really needed for woodchip storage, why have they not needed it before, as they have been running biomass boilers on the Basford Hall Estate for over 10 years. As well as this, the original application was submitted in March 2024, so why has it taken them until now to submit information that they could have submitted in the first place.

We fully object to this application for all the reasons previously included in our Basford Green Residents Objections and our own. In summary we do not want this enormous tower located in the middle of our hamlet!!!
