Dear Sir,

With regards to building 50 new houses on Rakeway, I am against this idea as the drains will not take any more. water or Sewerage, they can't take all away at present time.

I live in Dane Grove No 35 on Eves Lane, and when we get heavy rainfall my drains overflow flooding my Garden and down the side of my Property, I am forever getting Seven Trent out, there is no blockage in my drain but they say the main drain can not take that amount of water and me being on the end it backs up to me. I have lived here for 58yrs and it is getting worse
