1.0 Introduction:

1.1 Location:

Black Horse House is a two-storey traditional building located within central part of Cheadle, aligned to one of main roundabouts in the neighbourhood between High Street, Tape Street and Leek Road. It is a Historical Architectural object listed on 08th of August 1986 as Grade II, lays within Cheadle Conservation Area.

1.2 Present Function:

At the moment The Black Horse Building functions as Moorlands Home Link which is a charity supporting older people in the Staffordshire Moorlands, offering a unique and bespoke approach.

"We aim to prevent social isolation, loneliness, and maintain independence in the home for as long as is practicable for each individual who comes into our professional, quality care. We aim to help and support our clients to have a quality of life in their later years which encompasses a holistic approach to care inclusive to all."

2.0 Proposal

To install and fix new external signage to both front and side elevation to enhance the building and awareness to that the building is used

As a Cheadle hub to assist with loneliness and isolation.

The hanging sign will be a straight exchange with an existing sign and the large front elevation was an original position for the old "Black Horse" Sign.
