Submission: Objection

Comments: We are losing more and more green belt land, with zero infrastructure! The stupid ideas about pumping more water down to eaves land is a ludicrous plan! The lane already floods and is a death trap every time ice forecast with no gritters out! This plan would course more issues for the residents. There is no room for more house in Cheadle 1. No one can afford these bank hander brown envelopes corrupt housing! The schools are fit to bust where catchment areas mean absolutely nothing anymore. No public transport where resources has been cut back to 1 bus every 2 hours if it turns up at all! The roads can not withstand anymore traffic and it's a standstill for simple road maintenance! The flood risk has increased since the climate is changing with more rain.
