Submission: Objection

Comments: My reasons for objection are-:

The location of this site application does not give the true volume of traffic, size and weight of vehicles to the proposed site . This would increase further wear and tear to road surface which would eat into the council budget.which local people pay there taxes into.

Highways Department do not have the true numbers of road traffic accidents of which there are numerous as many go unreported having been dealt with by the vehicle owner.

Personal Safety to pedestrians, cyclists, ,dog walkers, horse-riders, joggers, anyone who participates in outdoor activities around the proposed site and its adjoining area of Caverswall are being ignored.

The environmental damage to trees and hedge lined narrow lanes and grass verge structures could be detrimental to wildlife plus increased pollution of noise and vehicle emmissions.

This proposed site , in a green belt area, should not be changed from residential to industrial useage. There are vacant industrial sites that are far more suitable for this type of business with SAFER and BETTER access.
