Hi Jane,

RE Condition 9: Air Quality mitigation scheme.

An Air Quality Mitigation Scheme has been produced by [entran](#). This is accepted and should be adopted moving forward .

Recommendation

Condition can be discharged.

Incidentally, I note that they have submitted a Phase 1 and Phase 2 contaminated land investigation, despite there only be an unexpected contaminated condition on the consent. The report though is fine and concludes no issues. This is accepted

The reason that there was no contaminated land condition attached is that the applicant had actually already done a (more comprehensive) contaminated land investigation at the time of the application, which reached the same conclusion as this new one, and was accepted!

All the Best

Dan

Morning Dan,

I've created a folder for this with relevant docs smdc planning>2025>doc/0061.

There are 2 documents for gas and remediation but I can't see what conditions they relate to in this consultation.

There are 2 specific EH conditions that I can see 7 (lighting part eco) and 9.

The AQ mitigation condition is no. 9 decision note attached.

I'll be responding to Jane re. 7 the lighting scheme.

Thanks

Den
