Notes:

- Phase 1 repair works to be completed prior to erection of scaffolding.
- Existing ironwork railing to be removed prior to the brickwork repairs.
- Damaged brickwork to be sequentially removed and replaced and fully course bonded back into the existing brickwork construction.
- Once the brickwork reinstatement has been completed, only then can the resin fixed dowel bars and internal straps be installed.

GENERAL NOTES

- This drawing shall be read in conjunction with all relevant Architects, Engineers, Specialist's drawings, and specifications.
- The Contractor shall check all dimensions on site prior to commencing work.
- All dimensions are in millimetres unless otherwise stated.
- For setting out refer to Architects details.
- The Contractor shall be responsible for the execution of the works in accordance with the drawings and the specification and for the accuracy of all dimensions and setting out on site.
- Should there be any conflict between the details indicated on this drawing and those indicated on other drawings the Project Engineer shall be informed PRIOR to construction on site.
- Until technical approval has been obtained from the relevant Authority, all drawings issued are Preliminary and NOT for construction. Scheme Design for Planning approval only.
- Should the Contractor commence site work prior to such approval being given, it is entirely at their own risk.
