[REDACTED]

Submission: Neither

Comments: I note from the approval of this project that condition 11 noted that the three road facing windows should be of obscure glass and "the windows shall be non-opening" Looking at the applicants drawings of the proposed windows there is no mention of this condition and I feel that it is very important that this requirement is adhered to.

Secondly, in the Declaration section of the applicant's letter for the current proposal it notes "Removal of Condition 8" This is the condition regarding external resurfacing within the curtilage of the building. I can see no explanation or justification for removal of this condition and feel that it should not be removed to avoid the potential that resurfacing unsympathetic or inappropriate to the building and Conservatuion area is used
