Submission: Neither

Comments: We have looked at the revised plans and they seem to make no sense.

My previous comments have not been answered. Why do you want to do this what will the outcome of granting this planning give anyone.

The island with bolards on give what ?

If this access road was put in I still have to go onto church lane but how do I turn right towards Blythe bridge. Wait on chevrons in middle of road?

Again I would not be able to turn into my driveway from off the service road it is too close to the wall. To make the manoeuvre I would need to take my wall down. We have a dropped curb which I will still use to access my drive like everyone else along Uttoxeter Road does.so this road is of no use.

There are a lot of people who use the footpath for various reasons. You have placed the footpath between 2 roads.

You are not widening the road so what will happen is that the larger artics are waiting to turn right into Cresswell lane and straddling the 2 lanes that impatient drivers will use this road to use as a rat run to get ahead of the turning. What will this mean for any pedestrian

This will happen especially when the bypass is shut.

Cresswell Road is not suitable for large heavy goods.

To conclude why.
