Submission: Objection

Comments: We would like to provide comments to object to the application.

We feel that the proposed extension would provide a direct view into our home via the roof windows at the side of the property. This would encroach on our privacy and provide a direct view into our bedrooms and bathroom.

The construction of an additional storey on top of the garage would mean we have the direct view of a two storey wall at the bottom of our garden, making it feel enclosed and negatively affecting the nature, aesthetics, light and the space surrounding our home.
