Application no: SMD/2024/0529

Determined on: 30/01/2026

**Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015
(as Amended)**

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:

Apesford Farm Apesford Lane Bradnop Staffordshire ST13 7EX

Description of Development:

Erection of Self-Build dwelling to replace existing dwelling.

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason:-

To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby approved shall be completed in exact accordance with the submitted amended plans and specifications as follows:-

AL80 received on 08.12.25

AL81A received on 08.12.25

AL82A received on 08.12.25

Reason:-

To ensure that the development is carried out in accordance with the approved plans, for clarity and the avoidance of doubt.

3. The facing materials shall be stone to match the stone materials of the existing dwelling on site in terms of type, colour and texture.

Reason:-

In the interests of the character and appearance of the area.

4. The roofing materials shall be Staffordshire Blue plain clay tiles to match the roofing materials of the existing dwelling on site in terms of type, colour and texture.

Reason:-

In the interests of the character and appearance of the area.

5. All new windows shall have a white painted timber finish and external doors shall comprise vertical timber boarding.

Reason:-

In the interests of the character and appearance of the area.

6. Before the new development is brought into use, the existing dwelling in the application site and all other buildings marked for demolition in the approved application drawings, shall be demolished in their entirety.

Reason:-

In the interests of the character and appearance of the area.

7. The development hereby permitted shall be constructed as a self-build or custom-build dwelling within the definition of self-build or custom-build housing in the 2015 Self-Build and Custom Housebuilding Act (as amended by the 2016 Housing and Planning Act or as defined within relevant successor legislation):

For a period of 3 years from the completion of the dwelling hereby permitted the occupation of the dwelling shall be limited to Mr J Harrison, his spouse, partner, widow or widower and to any resident dependents and the dwelling shall be their sole or main place of residence.

Reason:-

To ensure that the development remains a custom / self-build development and is therefore a genuine exemption to Biodiversity Net Gain requirements in accordance with Schedule 7A of the Town and Country Planning Act 1990

8. Before the development is first brought into use, 4no. bat boxes, 4no. swift boxes and 4no. house sparrow boxes shall be installed at the site in accordance with details of design and locations of the boxes to be submitted to and approved in writing by the local planning authority.

Reason:-

In the interests of the ecological value of the site.

9. Unless prior permission has been obtained in writing from the Local Planning Authority, all construction activities shall be restricted to the following times of operations.

"""" 08:00 - 18:00 hours (Monday to Friday);

"""" 08:00 - 13:00 hours (Saturday)

***** No working is permitted on Sundays or Bank Holidays.

Reason:-

To avoid the risk of disturbance to neighbouring dwellings from noise during unsocial hours.

10. In the event that contamination is found at any time when carrying out the approved development it must be reported in writing immediately to the Local Planning Authority. Development shall not continue further until an initial investigation and risk assessment has been completed in accordance with a scheme to be agreed in writing by the Local Planning Authority to assess the nature and extent of any contamination on the site. If the initial site risk assessment indicates that potential risks exists to any identified receptors, development shall not recommence until a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property, and the natural and historical environment has been submitted to and approved in writing by the local planning authority and any approved remediation has been carried out.

Reason:-

To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

11. Prior to bringing the development into first use, all soils that are intended to be used for the proposed garden/ soft landscaping areas shall be tested for contamination and assessed for their suitability for the proposed use. Prior to sampling, a suitable methodology for testing the soil shall be submitted to and agreed in writing by the Local Planning Authority and shall include the sampling frequency, testing schedules, and criteria against which the analytical results will be assessed. The results of the soil tests shall be submitted and approved in writing by the Local Planning Authority. If soil results indicates that a potential risks exists, development shall not be brought into use until a detailed remediation strategy to bring the site to a condition suitable for the intended use has been submitted to and approved in writing by the local planning authority and any approved remediation has been carried out.

Reason:-

To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

12. The development shall be undertaken in accordance with the following measures:

- I. Any waste material associated with the demolition or construction shall not be burnt on site but shall be kept securely for removal to prevent escape into the environment. All waste transfer records shall be retained for inspection by officers of the Local Planning Authority;
- II. No activity hereby permitted shall cause dust to be emitted beyond the site

boundary. In the event dust is caused to escape the site boundary the activity shall be stopped until sufficient dust suppression has been undertaken to prevent further escape. There shall always be the appropriate means and sufficient water resources on site for dust suppression. These shall be made available for inspection when required by officers of the Local Planning Authority

Reason: -

To protect the amenities of the area during construction

13. Any external artificial lighting incorporated into this site in connection to this development shall not increase the pre-existing illuminance at the adjoining light sensitive locations when the light (s) is (are) in operation. Details of all external artificial lighting to be installed at this development shall be submitted to and approved in writing by the Local Planning Authority prior to installation and the lighting shall be provided in accordance with the approved details.

Reason:-

To protect the local amenities of the local residents by reason of excess of illuminance and also to protect the ecological value of the site.

14. Before the development is first brought into use, three trees and native hedges shall be planted in accordance with a native hedge mix details and an amended site plan drawing to be submitted to and approved in writing by the local planning authority. The implemented trees and hedges shall be subsequently properly maintained in accordance with good horticultural practice; any plants which are removed, die, become diseased or otherwise fail to establish within 5 years of planting shall be replaced during the next available planting season and the replacements themselves shall then be properly maintained.

Reason:-

To ensure an appropriate landscape design, in the interests of the visual and residential amenities of the area and to contribute towards an overall biodiversity gain.

15. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that order with or without modification), no further development as specified in Part 1 Class(es) A, B, C, D, E or F or Part 2 Class(es) A to C shall be undertaken without express planning permission first being obtained from the Local Planning Authority.

Reason:-

To enable the Local Planning Authority to control the development and so safeguard the character and visual amenities of the area.

Informative

1. The Council has sought (negotiated) a sustainable form of development which complies with the provisions of the NPPF.

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting DBCP Limited, Web: dbcp.co.uk; Email: info@dbcp.co.uk ; Tel: 0333 880 2000.
2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.
3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a “condition precedent”. The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.
4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.
5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
 - (b) Variation to the approved plans will require the submission of a new planning application.
6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
8. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12

weeks of the date of this notice.

9. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.
10. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://acp.planninginspectorate.gov.uk>
11. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
12. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
13. Domestic sprinklers
Fire sprinklers operate automatically even if you are not at home releasing water directly over the source of the fire and sounding the alarm, they are unobtrusive and easy to install. Sprinklers are NOT expensive; normally costing around 1-2% of the cost of construction of a new building. The use of sprinklers will usually allow design freedoms as well, which can reduce construction costs and improve usability and design freedoms of the building. The chance of an accidental discharge is 16,000,000:1 If you would like further advice please contact Staffordshire Fire and Rescue Service (www.staffordshirefire.gov.uk)
14. Working smoke alarms correctly positioned in your home can save your life. The Fire Service recommends you have smoke alarms on every floor of your home, including in each bedroom, and make sure you test your smoke alarms at least once a month. Although the application of approved guidance and enforcement of regulations will give buildings the legally required baseline of fire protection, the Fire Service's viewpoint is many of these fall short of what we would consider adequate. This is why we campaign for the inclusion of sprinklers.
