Submission: Support

Comments: I am writing in full support of this planning application for the proposed physiotherapy clinic.

This development would provide a valuable healthcare service to the local community, improving access to essential physiotherapy treatment without the need to travel further afield. Having local provision will particularly benefit elderly residents, individuals recovering from injury or surgery, and those with mobility challenges.

The clinic is a positive and appropriate use of the site and will contribute to community wellbeing. Increased access to preventative and rehabilitative healthcare services supports public health, reduces pressure on GP practices and hospitals, and strengthens local infrastructure.

Overall, this proposal represents a beneficial addition to the area, and I strongly encourage the planning authority to approve the application.
