Submission: Support

Comments: With Endon having an ageing demographic having this business with the ability to provide a rehab gym would be ideal. It is also more environmentally friendly as no need to commute long distances for this service. My understanding is that this is a single storey extension within the existing courtyard to the rear of the premises. It will therefore not impact on the looks of the frontage of the building and does not take away from the ample car parking that is in place. Fully supportive of this proposed development which provides much needed jobs in the village as well as enhancing the valuable service they offer.
