Submission: Neither

Comments: We are fully supportive of this physiotherapy clinic as it would provide a valuable healthcare service to the local community. Access to physiotherapy supports injury rehabilitation, chronic pain management, post-operative recovery, and preventative healthcare, all of which contribute positively to public health and wellbeing within the local community. The proposal represents an appropriate and beneficial use of the property. It will also:

- Improve access to essential healthcare services within the local area
- Reduce pressure on GP practices and hospital services
- Support early intervention and preventative treatment
- Create skilled employment opportunities
- Encourage active, healthier lifestyles within the community - all of which would very welcome!
