Email: [REDACTED]

Submission: Objection

Comments: As you should already know, Thorney Edge Road is taking a battering from heavy work and traffic due to STWA. This has been ongoing for the last 3-4 months. We now have Luzlow Road closed so all traffic is cutting through Thorney Edge Road from Armshead and it's causing absolute chaos!!! and this is just cars and light vehicles. How on earth you expect this to be suitable access for the proposed application of battery storage and additional substation, I do not know. [REDACTED]

[REDACTED]

As I have already mentioned, the road is already subsiding in places due to STWA vehicles so what is it going to be like after hundreds of HGVs have used it for this application.

Please give this some considerable thought and think about local residents who will have to put up with constant noise, all round disruption, fire risk, destruction of local wildlife and much more for years to come.
