Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Two temporary Portakabin buildings to be used as office space

Has the work or change of use already started?

☐ Yes

☒ No

Existing Use

Please describe the current use of the site

Hard standing transport yard

Is the site currently vacant?

- ☒ Yes
- ☐ No

If Yes, please describe the last use of the site

Transport yard

When did this use end (if known)?

dd/mm/yyyy

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
- ☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
- ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
- ☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
- ☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

Proposed materials and finishes:

External walls are of a durable one-piece construction with high performance, low maintenance plastisol coated galvanized steel cladding to offer protection from fire, extreme weather and accidental damage. Internally the walls are vinyl-faced plasterboard providing a wipe clean finish.

Type:

Roof

Existing materials and finishes:

Proposed materials and finishes:

Outstanding insulation is provided by the construction of the roof. The roof deck is of one-piece construction and is impact resistant. It is covered with solar reflective, profiled, plastisol-coated galvanized steel to reduce heat gain. Internally the polyester-coated galvanized steel ceiling is designed to prevent condensation problems and has a low-maintenance finish.

Type:

Windows

Existing materials and finishes:

Proposed materials and finishes:

The windows have a PVC-U frames and double-glazed low energy glass for optimum thermal performance. Draught and condensation problems are minimized by effective weather seals and the low conductivity of the window frame and glazing materials. windows in critical locations are glazed with toughened safety glass as standard which offer protection from theft and vandalism.

Type:

Doors

Existing materials and finishes:

Proposed materials and finishes:

Steel faced doors have an insulation core that minimises heat loss. The anodised aluminium frame also incorporates draught proof weather seals.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

(An Ecological Impact Assessment has been supplied with this application) The development is exempt from biodiversity net gain by the de minimis exemption as: • The development does not impact on any onsite priority habitat, as none are present within the site; • The developed land; sealed surface and buildings have a biodiversity value of zero under the statutory biodiversity metric; and • There are no other habitats within the site.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☐ Other

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
☒ No
