Submission: Support

Comments: Myself & my 86 year old mother have been helped by ██████ one of the physiotherapists at RJB for the past 6 months. My mother has to have home visits due to not being mobile enough to climb stairs. The planned extension to incorporate a purpose gym would have huge benefits to us both to ensure exercises are being performed correctly under supervision. This facility is essential for the well being of the community. The extension would enhance the facilities providing the environment to benefit patients mental health. There is no facility in close proximity & for the local community it is vital to support them.
