Submission: Objection

Comments: As pointed out in several other objections, this is designated Green Belt land and should remain so, put in place to prevent future Urban Sprawl.

It is clear that the field in question has been purposely left to deteriorate, no doubt for the very purpose of building on at a later date..... hoping to bolster any argument with future applications. In contrast. this unkept field has provided a natural habitat for regularly witnessed owls in the area, taking advantage of lack of human intervention.

It would seem a better use of resources to renovate or rebuild many of the derelict or long term empty properties that are already present on the Moor (more than the 7 proposed in the application, all within half a mile). This proposal will only introduce yet more traffic on a busy cut through, already burdened with parked vehicles at the kerb.
