Email: [REDACTED]

Submission: Objection

Comments: A development on this site would destroy the rural character of the area, and cause irreversible damage to local wildlife habitat. Destruction of the rural-urban fringe will create car-dependent urban sprawl, with poor amenities and an inadequate public transport service.

The proposal is an overdevelopment of the site, with a density of housing that is completely out of character with the neighbourhood.

Such a development would create significant light pollution to the area.

Star gazing, bat watching and observing nature in the area would be adversely affected.
