Submission: Objection

Comments: I feel that this proposed development is far too large for the local vicinity. As someone who is due to move to the area this development would be detrimental to the small community and its local environment that has attracted me and my family to choose it as our next home. The amenities such as the local primary school could not support the number of houses proposed, and there are very limited additional services in this rural area. It would also result in spoiling of the beautiful surrounding countryside which is already seeing a huge number of visits each week. The noise, traffic and volume of houses and residents would have severe consequences on this small, rural setting, changing it's character and negatively impacting the local community, ecosystems and environment. It is also likely to negatively impact the number of visitors to the local caravan and camping parks as tourists are seeking a rural escape away from large residential developments.
