Dear planning

I live next door to hollyoaks. I am also joint owner. I can confirm that hollyoaks has been used as a children's care home since 2012.(see Ofsted reports)Unity residential care services leased the property from around march 2012. Although not with out some incidents. unity residential services their staff and the children in there care have been really good neighbours. I am of the opinion that a conventional family with four children (if there is such a thing) would be far more hassle. Has they do not have twenty four hour supervision.

Yours sincerely Anne walker
