Submission: Support

Comments: There is a housing crisis and the country desperately needs more houses. Not everyone wants to live in cities or brownfield areas and many would like to live rurally where supply is low. This development is on a small area of greenbelt and in my view, would not significantly degrade access or character of the local area. The local school is undersubscribed and may benefit from additional intake potentially due to this development. I fully support this application and would even do so if it was opposite my house.
