Good Afternoon

RE: SMD/2025/0424: Whiston Hall Golf Club - Proposed new building for the storage of vehicles and equipment for maintenance of the Golf Course.

Discussed at length.

Conclusion:

It was decided by a majority vote, (*Cllr. Steele was opposed*), to comment on the application as follows:

- A. It is noted that this is a large shed, particularly in terms of being 10.5 metres high.
- B. The proposed building is immediately adjacent to the large embankment forming the Upper Whiston Inclined Plain of the 1805 Tramroad. The proposed access is via a stone tunnel through the embankment likely to have been built at that time. If permission is granted, we would request a condition(s) to ensure there is no damage to these important heritage assets.

Kind regards

Carmen Giuliano-Worthington

Kingsley Parish Clerk/RFO
