Comments: We at the chapel wish the farm business well and encourage young farmers to develop their business. However, due to the expansion of the business over recent years parking can be sometimes difficult for the chapel members. This is the road side parking which the farm business also uses both for private cars and agricultural vehicles / machinery. Cloud Methodist Chapel is a listed building, its over 211 years old and is the oldest primitive Methodist Chapel still in regular use thus is of historical significance. Both old and young people attend but due to the steep access, from the road, the older people really appreciate parking being available on a Sunday near to the chapel. The parking situation has been made worse by the placing of large stones on the road side from Beech Tree Farm to the telegraph pole. It is not possible to park now - due to the narrow road- on this section.

We have to some degree worked together on the parking however would like to check if the business expands their sheds would there be more on farm parking, especially for the agricultural equipment/ vehicles as this would be greatly appreciated. We would also politely request the removal of the stones to allow for more roadside parking and for both parties to be mindful of each other's needs when parking.
