Comments: Rudyard lake is a beautiful place with great facilities. The one thing that is missing is a play area for the kids. I dont have children of my own but i regularly visite rudyard with scout groups to do water sports. Having a play arer for the kids to play on whilst waiting for everyone to arrive would be fantastic. I have seen plans for the area and feel that it has been designed to be sympathetic to the surroundings. All thought has been put in place as not to damage the root systems of the trees by using the RSJ and sleeper retaining walls to stop any bank erosion. Wood is a great choice for the retainers as it will blend in with the surrounding landscape. I like the fact that the play equipment is built from natural quick growing hardwood as this will is inkeeping with the area. The benefit to families and tourism in general that this will bring to the area would be huge. It would stop children playing on the car park if there was somewhere for them to play. I am sure that everything will be put into place to allow this project to enhance the area. I am very much in favour of this project

Many thanks

John
