Submission: Objection

Comments: I strongly object to this planning application on the grounds that this tiny village cannot sustain more house , especially 55 of them. The infrastructure in brown edge struggles to cope with the residents who

Live here already , without adding possibly 200 more at least. The traffic and vehicles this application would bring to the village would be destructive and destructive. The fields that the proposal is for is teaming with wildlife and forms part of the green belt. Broad lane offers no public footpath and is in a poor state of repair with the traffic we already have. The water and sewage in brown edge also poses problems already without this development adding to it. We already have flooding in the area.

To agree this development would change our village forever and a new site should be found.
