Subject: Planning Permission Application for Proposed Boundary Wall

Dear Sir/Madam,

I am writing in support of my planning application for the erection of a boundary wall and gate at my property, located at Tollgate Cottage.

The proposed wall is intended primarily to improve the security and privacy of the property. In recent years, maintaining secure boundaries has become increasingly important, and the wall will help protect the property from unauthorised access while providing a safer environment for the occupants. It is noticeable that there is increasing car theft in our local community as stated by Staffordshire Police.

In addition to security benefits, the proposed wall will enhance the overall appearance and character of the property. The design, height, and materials have been carefully considered to ensure that the structure complements the existing property and remains in keeping with the surrounding area. Due to the varying ground levels and elevation changes along the adjoining road, the height of the wall will differ in certain sections to maintain a consistent and appropriate level of screening and security throughout the boundary.

The design and positioning of the wall have been carefully considered to ensure that it complements the existing property and remains in keeping with the surrounding streetscape. The variation in wall height is necessary solely because of the changing road and ground levels and is not intended to create any adverse impact on neighbouring properties or visibility.

The proposal has been designed to minimise any impact on neighbouring properties and the streetscape. I believe the development represents a reasonable and positive improvement to the property and in keeping with other boundary walls in the local area and nearby properties.

I respectfully request that the Council give favourable consideration to this application.

Yours Faithfully,

Francesca Rawlings
