I am writing to place my objection to the development of White Gate into a children's home.

I have lived in the village of Bagnall for a little over 10 years where I have been very happy. It is a country village with about 700 residents the majority of which are in the 60+ age group and have a quiet life. Yes there is a playing field and swings by the village hall which is rarely used except when children are visiting grandparents.

However Clewllows Bank has become an extremely busy and dangerous road. White Gate is on a very bad bend where many drivers exceed the 30mph speed limit and come down in the centre of the road. This road is used as a cut thru by people living in Brown Edge, Endon and Longsdon to get to JCB the A500 and M6. Also many children from the Werrington and Ash Bank areas now attend the Endon schools which has increased the traffic. The speed of some drivers between 8 and 9 in the morning and 3 and 4 in the afternoon is dangerous and frightening. The times I have had to jump back onto the pavement when walking my dog is very concerning.

There are many people in this area with horses and they have to seriously choose when it is safe to go out because of the increased volume and danger of traffic.

There is no street lighting, no bus service, no shop, no doctors or chemist in this village.

To develop this property in the way of the application would bring more vehicles from staff.visitors and medical requirements.

I hope that you will consider all the points I have raised.

Pauline Shipley
