Submission: Objection

Comments: 55 houses in this smaller village will be more cars on a already noisy and crowded B 5051 road that has had more than a dozen significant crashes in the Endon and brown edge area in the last 5 years including 2 collisions right outside the proposed development in the last 12 months.

We have suffered with frequent water cut offs, electricity outages and we are usually very strict on any development on this area as we have struggled to get planning approved for an agricultural non walled pole barn 400 yards away from the proposed development.

This is not the appropriate location to be adding any houses without sorting underlying infrastructure and it cannot be done without damaging the green space and ecosystem. This area as I see in my own field has wild geese and deer and pheasants with the seasons and it will in no doubt change the ecosystem.
