Submission: Neither

Comments: No objection to raise in regards to the locations and species of trees within the landscaping plan. The site is constrained by available amenity space, which has been considered in the species to be planted.

However, no specification is given in regard to the sizes of trees to be planted with the exception of the birches which is detailed as standards though does not specify the size of the standard to be planted.

It is also necessary, to discharge the condition, to have details of the number of trees and the specification in regard to their sizes to be planted within the screening mixes.
